

National Standard of the People's Republic of China

GB/T 16546—1996

Shaped refractory products-Packing,
marking, transportation and storage

定形耐火制品包装、标志、运输和储存

(*English Translation*)

Issue date: 1996-09-27

Implementation date: 1997-03-01

Issued by General Administration of Quality Supervision, Inspection and
Quarantine of the People's Republic of China
Standardization Administration of the People's Republic of China

Foreword

SAC/TC 193 is in charge of this English translation. In case of any doubt about the contents of English translation, the Chinese original shall be considered authoritative.

This standard has no corresponding international standard and it is drawn up according to the actual service conditions in China. Several clauses are from the Russian standard ГOCT 24717-81 *Refractories and refractory products—Marking, packing, transportation and storage*. China has no independent standards for shaped refractory products on packing and marking, which were written in the last part of related products in previous. This national standard is drawn up in order to strengthen the packing of refractory products and to ensure the quality.

This standard is drafted according to GB/T 1.1—1993 *Directives for the work of standardization—Unit 1 : Drafting and presentation of standards—Part 1 : General rules for drafting standards*.

This standard is applicable to dense and insulating shaped refractories.

This standard is proposed by the Ministry of Metallurgical Industry.

This standard was prepared by SAC/TC 193 Technical Committee on Refractories of Standardization Administration of China.

Shaped refractory products-Packing, marking, transportation and storage

1 Scope

This standard specifies the technological requirements of the packing, marking, transportation and storage of shaped refractory products.

This standard is applicable to the dense and insulating shaped refractory products.
